Nixon Backs State School Bond Vote; Wants All on One Ballot

"Taxpayers of California have the right to see what all the bond issues are presented by the state at one time," Richard M. Nixon told a combined meeting of area Republican clubs here Tuesday night.

In speaking of the current controversy over \$820 million in state bonds which Gov. Brown wants to split between the June and November ballots, Nixon said "there is no real need for Brown lowering a one-two punch at the unwary taxpayer."

He charged the governor with "bungling incompetency and extravagant spending," in his talk before 1600 persons at the South High School auditorium.

ON THE OTHER hand, the former vice president who is now seeking the Republican nomination as governor said there is no question about being in favor of the school bonds.

"Our proposal is that the school aid bonds be given No. 1 priority ahead of all others," he said. "The taxpayer has the right to see all bond issues being presented by the state at one time," he added.

Brown has sought to put

\$270 million in construction bonds and \$200 million in school bonds on the June ballot, leaving another \$350 million for November.

answered scores of questions on national and state affairs, including his stand on the anti-communist John Birch Society.

"My record on communism is clear," he said at one point. "And I was fighting Communists when Robert Welch was still making candy," he added.

Batteries Taken

Eleven batteries were stolen early Monday morning from a service station at 16400 Crenshaw Blvd., owner Chris Elmer reported to police. Entry was gained by breaking a glass pane of an overhang door, reaching in and unlocking the door.
